

Proposed Rules

Federal Register

Vol. 69, No. 120

Wednesday, June 23, 2004

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 1030

[Docket No. AO-361-A39; DA-04-03]

Milk in the Upper Midwest Marketing Area; Notice of Hearing on Proposed Amendments to Tentative Marketing Agreement and Order

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule; Notice of public hearing on proposed rulemaking.

SUMMARY: A public hearing is being held to consider proposals to amend the Upper Midwest Federal milk marketing order (Order 30). A proposal to limit the volume of distant milk pooled on Order 30 by changing the requirements for producer milk originating outside of the Upper Midwest will be heard. Another proposal would limit the pooling of producer milk normally associated with the market that was not pooled in a prior month(s) while also changing the pooling requirements for producer milk originating outside of the Upper Midwest. Other proposals would establish a *dairy farmer for other markets* provision and would amend the touch base requirements and the diversion limits for Order 30. Also, another proposal would change the maximum rate the market administrator may charge for the expense of administration of the order from 5 cents per hundredweight up to 8 cents.

DATES: The hearing will convene at 1 p.m. on Monday, July 19, 2004.

ADDRESSES: The hearing will be held at the Sofitel Minneapolis Hotel (I-494 and Highway 100), 5601 West 78th Street, Bloomington, Minnesota 55439; (952) 835-1900.

FOR FURTHER INFORMATION CONTACT: Jack Rower, Marketing Specialist, Order Formulation and Enforcement, USDA/AMS/Dairy Programs, Room 2971-Stop 231, 1400 Independence Avenue, SW., Washington, DC 20250-0231, (202) 690-

3465, e-mail address:

Jack.Rower@usda.gov.

Persons requiring a sign language interpreter or other special accommodations should contact H. Paul Kyburz, Upper Midwest Market Administrator, at (952) 831-5292; e-mail pkkyburz@fmma30.com before the hearing begins.

SUPPLEMENTARY INFORMATION: This administrative action is governed by the provisions of sections 556 and 557 of Title 5 of the United States Code and, therefore, is excluded from the requirements of Executive Order 12866.

Notice is hereby given of a public hearing to be held at the Sofitel Minneapolis Hotel (I-494 and Highway 100), 5601 West 78th Street, Bloomington, Minnesota 55439; (952) 835-1900, beginning at 1 p.m., on Monday, July 19, 2004, with respect to proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Upper Midwest milk marketing areas.

The hearing is called pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR part 900).

The purpose of the hearing is to receive evidence with respect to the economic and marketing conditions that relate to the proposed amendments, hereinafter set forth, and any appropriate modifications thereof, to the tentative marketing agreement and to the order.

Evidence also will be taken to determine whether emergency marketing conditions exist that would warrant omission of a recommended decision under the rules of practice and procedure (7 CFR 900.12(d)) with respect to any proposed amendments.

Actions under the Federal milk order program are subject to the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). This Act seeks to ensure that, within the statutory authority of a program, the regulatory and informational requirements are tailored to the size and nature of small businesses. For the purpose of the Act, a dairy farm is a "small business" if it has an annual gross revenue of less than \$750,000, and a dairy products manufacturer is a "small business" if it has fewer than 500

employees. Most parties subject to a milk order are considered as a small business. Accordingly, interested parties are invited to present evidence on the probable regulatory and informational impact of the hearing proposals on small businesses. Also, parties may suggest modifications of these proposals for the purpose of tailoring their applicability to small businesses.

The amendments to the rules proposed herein have been reviewed under Executive Order 12988, Civil Justice Reform. They are not intended to have a retroactive effect. If adopted, the proposed amendments would not preempt any state or local laws, regulations, or policies, unless they present an irreconcilable conflict with this rule.

The Agricultural Marketing Agreement Act provides that administrative proceedings must be exhausted before parties may file suit in court. Under section 8c(15)(A) of the Act, any handler subject to an order may request modification or exemption from such order by filing with the Department of Agriculture (Department) a petition stating that the order, any provision of the order, or any obligation imposed in connection with the order is not in accordance with the law. A handler is afforded the opportunity for a hearing on the petition. After a hearing, the Department would rule on the petition. The Act provides that the district court of the United States in any district in which the handler is an inhabitant, or has its principal place of business, has jurisdiction in equity to review the Department's ruling on the petition, provided a bill in equity is filed not later than 20 days after the date of the entry of the ruling.

This public hearing is being conducted to collect evidence for the record concerning the effect on the orderly marketing of fluid milk due to pooling of milk from producers so distant from the market that they cannot be considered viable suppliers and to consider inequities among producers caused by provisions that allow reserve milk, which is used in cheese or butter and nonfat dry milk production, to share in the benefits of pooling, but do not require such milk to pool when there is a cost (when the Class III price or Class IV price is above the blend price). At the hearing, evidence will also be collected to consider giving the

market administrator the discretion to increase the Administrative Assessment to a maximum of 8 cents per hundredweight.

Interested parties who wish to introduce exhibits should provide the Presiding Officer at the hearing with (4) copies of such exhibits for the Official Record. Also, it would be helpful if additional copies are available for the use of other participants at the hearing.

List of Subjects in 7 CFR Part 1030

Milk marketing orders.

The authority citation for 7 CFR Part 1030 continues to read as follows:

Authority: 7 U.S.C. 601–674.

The proposed amendments, as set forth below, have not received the approval of the Department.

Proposed by Associated Milk Producers, Inc. (AMPI), Bongards' Creameries, Ellsworth Cooperative Creamery, and First District Association (AMPI, et. al.):

Proposal No. 1

This proposal would limit the pooling of milk located long distances from the Upper Midwest marketing area.

1. Amend §§ 1030.7 and 1030.13 by adding a new paragraph § 1030.7(c)(1)(v), revising paragraph § 1030.7(c)(2), and revising § 1030.13(d) to read as follows:

§ 1030.7 Pool plant.

* * * * *

(c) * * *
(1) * * *

(v) Qualifying shipments by plants located outside the States of Illinois, Iowa, Minnesota, North Dakota, South Dakota, and Wisconsin and the Upper Peninsula of Michigan may be made only to plants described in paragraphs (c)(1)(i) of this section.

(2) The operator of a supply plant located within the States of Illinois, Iowa, Minnesota, North Dakota, South Dakota, and Wisconsin and the Upper Peninsula of Michigan may include as qualifying shipments under this paragraph milk delivered directly from producers' farms pursuant to § 1000.9(c) or § 1030.13(c) to plants described in paragraphs (a), (b) and (e) of this section. Handlers may not use shipments pursuant to § 1000.9(c) or § 1030.13(c) to qualify plants located outside the marketing area.

* * * * *

§ 1030.13 Producer milk.

* * * * *

(d) Diverted by the operator of a pool plant or a cooperative association described in § 1000.9(c) to a nonpool

plant located in the States of Illinois, Iowa, Minnesota, North Dakota, South Dakota, and Wisconsin and the Upper Peninsula of Michigan or a distributing plant fully regulated under another Federal order, subject to the following conditions:

* * * * *

2. Amend § 1030.55 by revising paragraph (a)(2) to read as follows:

§ 1030.55 Transportation credits and assembly credits.

* * * * *

(a) * * *

(2) Multiply the hundredweight of milk eligible for the credit by .28 cents times the number of miles, not to exceed 400 miles, between the transferor plant and the transferee plant:

* * * * *

Proposed by Cass-Clay Creamery Inc., Dairy Farmers of America, Foremost Farms USA, Land O'Lakes, Mid-West Dairymen's Company, Milwaukee Cooperative Milk Producers, Manitowoc Milk Producers Cooperative, Swiss Valley Farms, and Woodstock Progressive Milk Producers (Mid-West, et. al.):

Proposal No. 2

This proposal would limit the pooling of producer milk normally associated with the market that was not pooled in a prior month(s), would change the pooling requirements for producer milk originating outside of the States where the Upper Midwest marketing area is located, and would limit the transportation and assembly credits not to exceed 400 miles.

1. Amend § 1030.13 by adding new paragraphs (f) through (f)(4) to read as follows:

§ 1030.13 Producer milk.

* * * * *

(f) Except in the month of August, the quantity of milk reported by a handler pursuant to § 1030.30(a)(1) and/or § 1030.30(c)(1) for September through February and for April through July may not exceed 125 percent, and March may not exceed 135 percent of the producer milk receipts pooled by the handler during the prior month. Milk diverted to nonpool plants reported in excess of this limit shall be removed from the pool. Milk received at pool plants, other than pool distributing plants, shall be classified pursuant to § 1000.44(a)(3)(v) and § 1000.44(b)(3)(v). The handler must designate, by producer pick-up, which milk is to be removed from the pool. If the handler fails to provide this information, the market administrator will make the determination. The following provisions apply:

(1) Milk shipped to and physically received at pool distributing plants shall not be subject to the 125 or 135 percent limitation;

(2) Producer milk qualified pursuant to § _____.13 of any other Federal Order and continuously pooled in any Federal Order for the previous six months shall not be included in the computation of the 125 or 135 percent limitation;

(3) The market administrator may waive the 125 or 135 percent limitation;

(i) For a new handler on the order, subject to the provisions of § 1030.13(f)(3), or

(ii) For an existing handler with significantly changed milk supply conditions due to unusual circumstances;

(4) A bloc of milk may be considered ineligible for pooling if the market administrator determines that handlers altered the reporting of such milk for the purpose of evading the provisions of this paragraph.

* * * * *

2. Amend §§ 1030.7 and 1030.13 by adding a new paragraph § 1030.7(c)(1)(v), revising paragraph § 1030.7(c)(2), and revising § 1030.13(d) to read as follows:

§ 1030.7 Pool plant.

* * * * *

(c) * * *
(1) * * *

(v) Qualifying shipments by plants located outside the States of Illinois, Iowa, Minnesota, North Dakota, South Dakota, and Wisconsin and the Upper Peninsula of Michigan may be made only to plants described in paragraphs (c)(1)(i) of this section.

(2) The operator of a supply plant located within the States of Illinois, Iowa, Minnesota, North Dakota, South Dakota, and Wisconsin and the Upper Peninsula of Michigan may include as qualifying shipments under this paragraph milk delivered directly from producers' farms pursuant to § 1000.9(c) or § 1030.13(c) to plants described in paragraphs (a), (b) and (e) of this section. The operator of a supply plant located outside the area described above cannot include such shipments as qualifying shipments. Cooperative associations may not use shipments pursuant to § 1000.9(c) to qualify plants located outside the marketing area.

* * * * *

§ 1030.13 Producer milk

* * * * *

(d) Diverted by the operator of a pool plant or a cooperative association described in § 1000.9(c) to a nonpool plant (except a distributing plant fully regulated under another Federal order),

located in the States of Illinois, Iowa, Minnesota, North Dakota, South Dakota, and Wisconsin and the Upper Peninsula of Michigan, subject to the following conditions:

* * * * *

3. Amend § 1030.55 by revising paragraph (a)(2) to read as follows:

§ 1030.55 Transportation credits and assembly credits.

* * * * *

(a) * * *

(2) Multiply the hundredweight of milk eligible for the credit by .28 cents times the number of miles, not to exceed 400 miles, between the transferor plant and the transferee plant:

* * * * *

Proposed by Dean Foods Company:

Proposal No. 3

This proposal to establish a *dairy farmer for other markets* provision would require a year round commitment in order for milk to be pooled.

1. Amend § 1030.12 by adding a new paragraph (b)(5) to read as follows:

§ 1030.12 Producer.

* * * * *

(b) * * *

(5) For any month, any dairy farmer whose milk is received at a pool plant or by a cooperative association handler described in § 1000.9(c) if the pool plant operator or the cooperative association caused milk from the same farm to be delivered to any plant as other than producer milk, as defined under the order in this part or any other Federal milk order, during the same month or any of the preceding 11 months, unless the equivalent of at least ten days' milk production has been physically received otherwise as producer milk at a pool plant during the month.

Proposed by Dean Foods Company:

Proposal No. 4

This proposal to establish a *dairy farmer for other markets* provision would require a 2 to 4 month commitment in order for milk to be pooled.

1. Amend § 1030.12 by adding new paragraphs (b)(5) and (b)(6) to read as follows:

§ 1030.12 Producer.

* * * * *

(b) * * *

(5) For any month of December through June, any dairy farmer whose milk is received at a pool plant or by a cooperative association handler described in § 1000.9(c) if the pool plant operator or the cooperative association caused milk from the same farm to be

delivered to any plant as other than producer milk, as defined under the order in this part or any other Federal milk order, during the same month, any of the 3 preceding months, or during any of the preceding months of July through November, unless the equivalent of at least ten days' milk production has been physically received otherwise as producer milk at a pool plant during the month; and

(6) For any month of July through November, any dairy farmer whose milk is received at a pool plant or by a cooperative association handler described in § 1000.9(c) if the pool plant operator or the cooperative association caused milk from the same farm to be delivered to any plant as other than producer milk, as defined under the order in this part or any other Federal milk order, during the same or the preceding month, unless the equivalent of at least ten days' milk production has been physically received otherwise as producer milk at a pool plant during the month.

Proposed by Dean Foods Company:

Proposal No. 5

This proposal to establish a *dairy farmer for other markets* provision would require that only 115% of a prior month's milk could be pooled in a subsequent month and be considered pool milk.

1. Amend § 1030.13 by adding a new paragraph (f) to read as follows:

§ 1030.13 Producer Milk.

* * * * *

(f) The quantity of milk reported by a handler pursuant to § 1030.30(a)(1) and/or § 1030.30(c)(1) for July through November may not exceed 115 percent of the producer milk receipts pooled by the handler during the prior month. Milk diverted to nonpool plants reported in excess of this limit shall be removed from the pool by the market administrator. Milk received at pool plants, other than pool distributing plants, shall be classified pursuant to § 1000.44(a)(3)(v) and § 1000.44(b)(3)(v). The handler must designate, by producer pick-up, which milk is to be removed from the pool. If the handler fails to provide this information, the market administrator will make the determination. The following provisions apply:

(1) Milk shipped to and physically received at pool distributing plants shall not be subject to the 115 percent limitation;

(2) Producer milk qualified pursuant to § _____.13 of any other Federal Order and continuously pooled in any Federal Order for the previous six

months shall not be included in the computation of the 115 percent limitation;

(3) The market administrator may waive the 115 percent limitation utilizing;

(i) For a new handler on the order, subject to the provisions of § 1030.13(f)(3), or

(ii) For an existing handler with significantly changed milk supply conditions due to unusual circumstances;

(4) The market administrator may increase or decrease the applicable limitation for a month consistent with the procedures in § 1030.7(g); and

(5) A bloc of milk may be considered ineligible for pooling if the market administrator determines that handlers altered the reporting of such milk for the purpose of evading the provisions of this paragraph.

Proposed by Dean Foods Company:

Proposal No. 6

This proposal would establish a two day touch base requirement during the shorter months and diversion limitations of 65 and 75 percent.

1. Amend § 1030.13 by adding new paragraphs (d)(1) through (4), and redesignating paragraph (d)(4) as paragraph (d)(5), to read as follows:

* * * * *

(d) * * *

(1) Milk of a dairy farmer shall not be eligible for diversion until milk of such dairy farmer has been physically received as producer milk¹¹ at a pool plant and the dairy farmer has continuously retained producer status since that time. If a dairy farmer loses producer status under the order in this part (except as a result of a temporary loss of Grade A approval), the dairy farmer's milk shall not be eligible for diversion until milk of the dairy farmer has been physically received as producer milk at a pool plant;

(2) The equivalent of at least two days' milk production is caused by the handler to be physically received at a pool plant in each of the months of July through November;

(3) The equivalent of at least two days' milk production is caused by the handler to be physically received at a pool plant in each of the months of December through June if the requirement of paragraph (d)(2) of this section (§ 1030.13) in each of the prior months of July through November is not met, except in the case of dairy farmer who marketed no Grade A milk during each of the prior months of July through November.

(4) Of the total quantity of producer milk received during the month

(including diversions but excluding the quantity of producer milk received from a handler described in § 1000.9(c) of this chapter or which is diverted to another pool plant), the handler diverted to nonpool plants not more than 65 percent in each of the months of July through November and 75 percent in each of the months of December through June.

* * * * *

Proposed by the Upper Midwest Market Administrator:

Proposal No. 7

This proposal would increase the maximum administrative assessment rate for the Upper Midwest order from 5 cents to 8 cents per hundredweight.

1. Revise § 1030.85 to read as follows:

§ 1030.85 Assessment for order administration.

On or before the payment receipt date specified under § 1030.71, each handler shall pay to the market administrator its pro rata share of the expense of administration of the order at a rate specified by the market administrator that is no more than 8 cents per hundredweight with respect to:

(a) Receipts of producer milk (including the handler's own production) other than such receipts by a handler described in § 1000.9(c) that were delivered to pool plants of other handlers;

(b) Receipts from a handler described in § 1000.9(c);

(c) Receipts of concentrated fluid milk products from unregulated supply plants and receipts of nonfluid milk products assigned to Class I use pursuant to § 1000.43(d) and other source milk allocated to Class I pursuant to § 1000.44(a)(3) and (8) and the corresponding steps of § 1000.44(b), except other source milk that is excluded from the computations pursuant to § 1030.60(h) and (i); and

(d) Route disposition in the marketing area from a partially regulated distributing plant that exceeds the skim milk and butterfat subtracted pursuant to § 1000.76(a)(1)(i) and (ii).

Proposed by Dairy Programs, Agricultural Marketing Service:

Proposal No. 8

Make such changes as may be necessary to make the entire marketing agreement and the order conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing and the orders may be procured from the Market Administrator of the aforesaid marketing area, or from the Hearing Clerk, United States Department of

Agriculture, Room 1083—STOP 9200, 1400 Independence Avenue, SW., Washington, DC 20250-9200, or may be inspected there.

Copies of the transcript of testimony taken at the hearing will not be available for distribution through the Hearing Clerk's Office. If you wish to purchase a copy, arrangements may be made with the reporter at the hearing.

From the time that a hearing notice is issued and until the issuance of a final decision in a proceeding, Department employees involved in the decision-making process are prohibited from discussing the merits of the hearing issues on an *ex parte* basis with any person having an interest in the proceeding. For this particular proceeding, the prohibition applies to employees in the following organizational units:

Office of the Secretary of Agriculture;
Office of the Administrator, Agricultural Marketing Service;
Office of the General Counsel;
Dairy Programs, Agricultural Marketing Service (Washington office) and
the Offices of all Market Administrators.

Procedural matters are not subject to the above prohibition and may be discussed at any time.

Dated: June 16, 2004.

A.J. Yates,
Administrator, Agricultural Marketing Service.

BILLING CODE 3410-02-P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. 2001-NM-89-AD]

RIN 2120-AA64

Airworthiness Directives; Boeing Model 777-200 and -300 Series Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Supplemental notice of proposed rulemaking; reopening of comment period.

SUMMARY: This document revises an earlier proposed airworthiness directive (AD), applicable to certain Boeing Model 777-200 and -300 series airplanes. The proposed AD would have required a one-time inspection of the clevis end of the vertical tie rods that support the center stowage bins to measure the exposed thread, installation

of placards that advise of weight limits for certain electrical racks, a one-time inspection and records check to determine the amount of weight currently installed in those electrical racks, corrective actions, and replacement of the vertical tie rods for the center stowage bins or electrical racks with new improved tie rods, as applicable. This new action revises the proposed rule by proposing to require, for certain airplanes, inspections of additional tie rod part numbers and additional locations. This new action also proposes to revise an inspection method. The actions specified by this new proposed AD are intended to prevent failure of the tie rods supporting certain electrical racks and the center stowage bins, which could cause the racks or stowage bins to fall onto passenger seats below during an emergency landing, impeding an emergency evacuation or injuring passengers. This action is intended to address the identified unsafe condition.

DATES: Comments must be received by July 19, 2004.

ADDRESSES: Submit comments in triplicate to the Federal Aviation Administration (FAA), Transport Airplane Directorate, ANM-114, Attention: Rules Docket No. 2001-NM-89-AD, 1601 Lind Avenue, SW., Renton, Washington 98055-4056. Comments may be inspected at this location between 9 a.m. and 3 p.m., Monday through Friday, except Federal holidays. Comments may be submitted via fax to (425) 227-1232. Comments may also be sent via the Internet using the following address: 9-anm-nprmcomment@faa.gov. Comments sent via fax or the Internet must contain "Docket No. 2001-NM-89-AD" in the subject line and need not be submitted in triplicate. Comments sent via the Internet as attached electronic files must be formatted in Microsoft Word 97 or 2000 or ASCII text.

The service information referenced in the proposed rule may be obtained from Boeing Commercial Airplanes, P.O. Box 3707, Seattle, Washington 98124-2207. This information may be examined at the FAA, Transport Airplane Directorate, 1601 Lind Avenue, SW., Renton, Washington.

SUPPLEMENTARY INFORMATION:

Proposed Rules

Federal Register

Vol. 69, No. 139

Wednesday, July 21, 2004

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 1030

[Docket No. AO-361-A39; DA-04-03]

Milk in the Upper Midwest Marketing Area; Delay of Hearing Date

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule; notice of hearing delay.

SUMMARY: The Agricultural Marketing Service is delaying the hearing date for the proposed rule that appeared in the *Federal Register* of June 23, 2004 (69 FR 34963), which gave notice of a public hearing being held to consider proposals that would amend certain provisions of the Upper Midwest milk marketing order. The hearing scheduled to begin July 19, 2004, has been delayed until Monday, August 16, 2004. The hearing must be completed by or adjourned by noon on Friday, August 20, 2004. To expedite the hearing process, the presiding Administrative Law Judge requests that the statements of all witnesses be exchanged with known participants on or before August 13, 2004.

DATES: The hearing will convene at 1 p.m. on Monday, August 16, 2004.

ADDRESSES: The hearing will be held at the Sofitel Minneapolis Hotel (I-494 and Highway 100), 5601 West 78th Street, Bloomington, Minnesota 55439; (952) 835-1900.

FOR FURTHER INFORMATION CONTACT: Gino Tosi, Marketing Specialist, Order Formulation and Enforcement, USDA/AMS/Dairy Programs, Room 2971-Stop 0231, 1400 Independence Avenue, SW., Washington, DC 20250-0231, (202) 690-1366, e-mail address: Gino.Tosi@usda.gov.

SUPPLEMENTARY INFORMATION: In the proposed rule beginning on page 34963 of the *Federal Register* for Wednesday, June 23, 2004, the hearing date in the

first and second column on page 34963 is changed in both the **DATES** and **SUPPLEMENTARY INFORMATION** sections to read as follows:

DATES: The hearing will convene at 1 p.m. on Monday, August 16, 2004.

SUPPLEMENTARY INFORMATION:

This administrative action is governed by the provisions of sections 556 and 557 of Title 5 of the United States Code and, therefore, is excluded from the requirements of Executive Order 12866.

Notice is hereby given of a public hearing to be held at the Sofitel Minneapolis Hotel (I-494 and Highway 100), 5601 West 78th Street, Bloomington, Minnesota 55439; (952) 835-1900, beginning at 1 p.m., on Monday, August 16, 2004, with respect to proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Upper Midwest milk marketing area. The hearing is delayed at the request of some of the proponents of the proposed amendments to allow for more time to prepare for the hearing.

Authority: 7 U.S.C. 601-674.

Dated: July 14, 2004.

A.J. Yates,
Administrator, Agricultural Marketing Service.

Animal and Plant Health Inspection Service

9 CFR Parts 2 and 3

[Docket No. 98-106-5]

RIN 0579-AB69

Animal Welfare; Regulations and Standards for Birds, Rats, and Mice

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Advance notice of proposed rulemaking; extension of comment period.

SUMMARY: We are extending the comment period for our advance notice of proposed rulemaking regarding several changes we are considering to the Animal Welfare Act (AWA) regulations to help promote the humane handling, care, treatment, and

transportation of birds, rats, and mice not specifically excluded from coverage under the AWA. This action will allow interested persons additional time to prepare and submit comments.

DATES: We will consider all comments that we receive on or before November 1, 2004.

ADDRESSES: You may submit comments by any of the following methods:

- **Webform:** The preferred method is to use the webform located at <http://comments.aphis.usda.gov>. This webform is designed to allow commenters to associate each of their comments with the issues identified in the advance notice, and to allow APHIS to more easily analyze the comments received regarding each issue.

- **Postal Mail/Commercial Delivery:** Please send four copies of your comment (an original and three copies) to Docket No. 98-106-4, Regulatory Analysis and Development, PPD, APHIS, Station 3C71, 4700 River Road Unit 118, Riverdale, MD 20737-1238. Please state that your comment refers to Docket No. 98-106-4.

- **E-mail:** Address your comment to regulations@aphis.usda.gov. Your comment must be contained in the body of your message; do not send attached files. Please include your name and address in your message and "Docket No. 98-106-4" on the subject line.

- **Federal eRulemaking Portal:** Go to <http://www.regulations.gov> and follow the instructions for locating this docket and submitting comments.

Reading Room: You may read any comments that we receive on Docket No. 98-106-4 in our reading room. The reading room is located in room 1141 of the USDA South Building, 14th Street and Independence Avenue, SW., Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 690-2817 before coming.

Other Information: You may view APHIS documents published in the *Federal Register* and related information, including the names of groups and individuals who have commented on APHIS dockets, on the Internet at <http://www.aphis.usda.gov/ppd/rad/webrepor.html>.

USDA SETS HEARING ON PROPOSED AMENDMENTS TO UPPER MIDWEST MILK ORDER

WASHINGTON, June 22, 2004 - The U. S. Department of Agriculture today announced that a public hearing will be held to consider proposals to amend the Upper Midwest milk marketing order. The hearing will begin at 1:00 p.m. on Monday, July 19 at the Sofitel Minneapolis Hotel (I-494 and Highway 100), 5601 West 78th Street, Bloomington, Minn. 55439.

The hearing will consider a proposal to limit the volume of distant milk pooled on the Upper Midwest order by changing the requirements for producer milk originating outside of the Upper Midwest. Another proposal to be considered would limit the pooling of producer milk normally associated with the market that was not pooled in a prior month while also changing the pooling requirements for producer milk originating outside of the Upper Midwest. Proposals that seek to amend certain other terms and provisions of the order will also be considered at the hearing. Evidence will be taken at the hearing to determine whether marketing conditions exist that warrant omission of a recommended decision.

The hearing notice will be published in the June 23 Federal Register. Copies of the hearing notice may be obtained from the USDA/AMS/Dairy Programs, Rm. 2971 - Stop 0231, 1400 Independence Avenue, SW, Washington, D.C. 20250-0231 The hearing notice is also available on AMS' web site, at: www.ams.usda.gov/dairy or by contacting H. Paul Kyburz, Market Administrator at USDA/AMS/Dairy Programs, Suite 210, 4570 West 77th Street Minneapolis, MN 55435-5037, Tel. (952) 831-5292; e-mail: pkiburz@fmma30.com.

USDA DELAYS HEARING ON PROPOSED AMENDMENTS TO UPPER MIDWEST MILK ORDER

Washington, D.C., July 12, 2004 – The U. S. Department of Agriculture today announced that a public hearing on proposed amendments to the Upper Midwest Federal milk marketing order, scheduled for the week of July 19, 2004, has been delayed at the request of industry participants. The hearing will now begin Monday, Aug. 16, at 1:00 p.m at the Sofitel Minneapolis Hotel (I-494 and Highway 100), 5601 West 78th Street, Bloomington, Minn. 55439.

The hearing must be completed by or adjourned by noon on Friday, Aug. 20, 2004. In order to expedite the hearing process, the presiding administrative law judge requests that the statements of all witnesses be exchanged with known participants on or before Aug. 13, 2004. Proponents of amendments to the order are listed in the original hearing notice, published in the June 23rd Federal Register.

The hearing notice date change will be published as a proposed rule in a future issue of the Federal Register. Copies of the notice of delay in the hearing date may be obtained from the USDA/AMS/Dairy Programs, Rm. 2971 - Stop 0231, 1400 Independence Avenue, SW, Washington, D.C. 20250-0231. The notice of delay will be available on AMS' web site, at: www.ams.usda.gov/dairy.

Information about the hearing is available from the Market Administrator office, as follows:

The United States Department of Agriculture (USDA) prohibits discrimination in all its programs on the basis of race, color, national origin, gender, religion, age, disability, political beliefs, sexual orientation, and marital or family status. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (braille, large print, audiotape, etc.) should contact the USDA's TARGET Center at 202-720-2600 (voice and TDD).

To file a complaint of discrimination, write USDA, Director, Office of Civil Rights, Room 326-W, Whitten Building, 14th and Independence Avenue, SW, Washington, D.C., 20250-9410, or call 202-720-5964 (voice or TDD). USDA is an equal opportunity provider and employer.

^{1/} The 65% diversion limit would apply for July through November.

^{2/} The 75% diversion limit would apply for December through June.

Note: Assumes that handlers and producers did not change their transportation and delivery practices.

**STATEMENT of
SUE BEITLICH, PRESIDENT
WISCONSIN FARMERS UNION**

**On behalf of the
WISCONSIN FARMERS UNION
NORTH DAKOTA FARMERS UNION
MINNESOTA FARMERS UNION**

**Presented to the
USDA Federal Milk Marketing Order Public Hearing**

**Proposed Amendments to Tentative Marketing Agreement and Order
for
Milk in the Upper Midwest Marketing Area**

August 16, 2004

Bloomington, MN

Your Honor, thank you for the opportunity to present this testimony today. My name is Sue Beitlich, I am president of the Wisconsin Farmers Union and a family farm dairy producer in Stoddard, WI. I am here today on behalf of the producer-members of Wisconsin Farmers Union, as well as the members of Minnesota and North Dakota Farmers Union.

I am not here today to provide a detailed economic analysis of the multiple proposed amendments to the order, but will share with you the voice of dairy producers in my respective states that have been under severe economic hardship over the past few years due to a number of controllable and uncontrollable factors. Unfortunately, producers in my state and others have had to face economic hardship, due to a loophole in our marketing order.

The request for this hearing and proposed amendments to the order came from a coalition of dairy companies and cooperatives, that represent over 40 percent of the milk pooled on the order and nearly 60 percent of the milk delivered to distributing plants within the order. It is a consensus agreement among these companies and cooperatives that milk originating from outside the marketing area is having an adverse economic effect on the producers who regularly supply milk into the order.

A provision within Federal Milk Marketing Order #30 allows handlers of "distant" milk to pick and choose when to participate in a pool, thus drawing revenue funds from the marketing area. Unfortunately, this provision has placed undue hardship on the many dairy farmers who provide a continuous supply of milk into the Order. The levels of "distant" milk drawing revenue from Order 30 have overwhelmingly increased at a time when dairy producers have just begun to recover from twenty-five year market lows.

Over twenty counties in Idaho delivered milk into the Upper Midwest Milk Marketing Order in December of 2003, with one particular county in that state ranking number one overall in delivery into the order. More than 180 producers from Idaho delivered more than 260 million pounds of producer milk, representing 12% of the Order's market during the same period. Due to the administrative loophole in order, handlers determine whether or not they will receive an economic benefit from being a participant in the pool, regardless of the effect it will have on the other producers who consistently provide a supply of milk into the order.

Our members simply want to receive an equitable price for their milk. I encourage you and the Department of Agriculture to closely review the statistical data provided to you this week and close the loophole that permits distant milk from being a part of our marketing order.

I would like to address the economic effects depooling has had on producers in my organization. When a cooperative engages in depooling a large portion of milk, the proceeds are often not reflected in dividend payments back to the producers. While I recognize this as a cooperative governance issue, not a Federal Order administrative issue, it is of concern that our producers are not sharing in the profits of this marketing

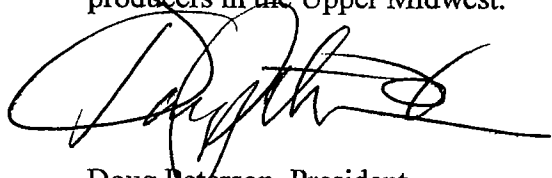

practice. While it is not common for Class III prices to rise so rapidly that they exceed Class I, resulting in negative producer price differentials and consequently depooling, it has been clearly demonstrated this year that more often than not, it is the producer who is left holding the short end of the stick. A long-term solution must be found to address this sometimes short-term problem.

I must stress the importance of finding reasonable solutions to the many issues you will be hearing over the course of this week. Dairy producers are the heart of the Upper Midwest and the number one goal of this hearing should be to ensuring the producers have profitability and stay on the land.

Finally, I would like to urge USDA, in reviewing testimony from this hearing, to strictly follow the law. Specifically, I am referring to the amended Agriculture Marketing Agreement Act of 1937, Section 608 (c)(7), which lays out the policies for USDA to follow in administering federal milk orders. This specific section directs USDA to, "Prohibit unfair methods of competition and unfair trade practices in the handling thereof".

We all know that pooling requirements and Class I performance rules have been used by some cooperatives and cooperative marketing associations to take advantage of other raw milk marketers. In recent days we read about a nationwide federal antitrust investigation by the U.S. Department of Justice, against the nation's largest dairy cooperative that may also involved "superpools"---common marketing agencies. It is USDA's job, among many other difficult considerations, to consider the competitive aspects of any rule changes it makes based upon testimony at this hearing. Honest competition is not only a good idea, it's the law.

I thank you for this opportunity and look forward to working with the Department in implementing any of the necessary amendments, to ensure the viability of dairy producers in the Upper Midwest.

August 16, 2004

My name is Paul Rozwadowski. I am a dairy farmer in Stanley, Wisconsin, which is located in Federal Order 30. Additionally, I am Chairman of the National Family Farm Coalition's Dairy Subcommittee. I am here on behalf of the National Family Farm Coalition. We appreciate the opportunity to address issues associated with depooling, which are important to the public as well as all those involved in the dairy industry.

Although the National Family Farm Coalition is aware that the Hearing today is limited to the topics set forth in the Federal Register, we would like the record to note that while addressing depooling in today's hearing may seem to represent some progress towards solving the problems of Order Reform, it is quite likely that solutions will only be found in addressing the system as a whole. The National Family Farm Coalition's Dairy Subcommittee would request USDA to reopen the Federal Orders for a complete system reform.

Speaking before the International Dairy Foods Association "Dairy Forum" about the proposed Order Reform, E. Linnwood Tipton said in 1998, "We are in a competitive world where price counts. Where creativity counts. Where innovation counts. We need less regulation and fewer marketing restraints to compete more effectively."¹

Federal Order Reform has been around for several years now, giving us ample data to judge its effectiveness. Price has counted. Since Federal Order Reform, farm milk price, adjusted for inflation, has fallen. The toll in farm loss has fallen heaviest upon the traditional family farm. At the same time family farms were being forced out of business, the public has been paying more for milk and other dairy products.

Nothing in the Federal Agriculture Improvement and Reform Act of 1996 gave any indication the results would represent a form of legal plunder. However, the "creativity" and the "innovation" mentioned by Mr. Tipton in 1998 resembles today the games that have been played with the pooling provisions of Order Reform.

It is worth noting at this point that the public is not experiencing any shortage of milk at this time. It is also important to note that the farm mailbox price for the Upper Midwest stands at the highest in the nation.²

There is a very good reason why farm mailbox prices in the Upper Midwest is comparatively high. Although we have lost huge numbers of farms and huge numbers of processors, the Upper Midwest still has the greatest competition for milk in the nation. This is coincidental to Federal Orders—not a result of Federal Orders.

¹ Dairy Foods, April 1998 http://www.findarticles.com/p/articles/mi_m3301/is_n4_v99/ai_20872542

² See Graph

Looking at other parts of the country, it appears that the 1938 Agricultural Act 608 (c) (7) (a), which states: “Prohibiting unfair methods of competition and unfair trade practices” was forgotten as soon as it was written. All of the issues regarding pooling and most of the problems of dairy could be solved by rigorous enforcement of that section.

If you consider those who have submitted proposal number 2, whose members include: Cass-Clay Creamery Inc., Dairy Farmers of America, Foremost Farms USA, Land O'Lakes, Mid-West Dairymen's Company, Milwaukee Cooperative Milk Producers, Manitowoc Milk Producers Cooperative, Swiss Valley Farms, and Woodstock Progressive Milk Producers (Mid-West, et. al.), what do you see? You see a partial list of those who have made the pooling issue a problem.

And it is important to note what these key players see as the “problem” to the Federal Orders. Are they asking for a correction of the problem? Certainly, it is a matter of fact that those players are perfectly willing to play the game in other orders—when it works toward their benefit.

For example, proposals one through six are all made by organizations that either directly or by association have reduced farm milk price to family farmers elsewhere in the country. At the same time, several have cut deals with bonuses to large farms. Is there any reason to think that proposals by those who have benefited from depooling are sincerely wishing to close all loopholes?

The Upper Midwest is not an island. The Upper Midwest does not stand alone. We are part of a national system, which should be working for everyone’s benefit. Restrictions in place did not prevent depooling in Federal Order One during April and May. Proposals One through Six appear to be nothing more than a cease-fire of the powerful players in the dairy industry.

Ken Bailey, dairy economist from Penn State, writing in 2001 in the Journal of Dairy Science said:

“It will be much more transparent than the old system. Before order reform it was difficult to explain to farmers how their milk check was determined if their milk was sold into multiple orders in any given month. With order consolidation, the remaining orders are much larger, reducing the chance that a dairy producer’s milk will be shipped into more than one or two federal orders.”³

He was wrong. It is not at all transparent. It is impossible to even follow the money.

Proposal No. 7 would increase the maximum administrative assessment rate for the Upper Midwest order from 5 cents to 8 cents per hundredweight. This is symbolic of the irony we deal with. While farmers in the Upper Midwest have, due to competition, been

³ J. Dairy Sci. 84:974–986 <http://jds.fass.org/cgi/reprint/84/4/974.pdf>

paid as if depooling did not occur, depooling has caused havoc to the system. As the result of depooling, money has been siphoned away from the Administration of Order 30. Proposal No. 7 represents only a symptom of the problem and not a solution.

The National Family Farm Coalition respectfully submits to the record that pooling problems are a national issue and must be dealt with on a national level. We would request additional hearings in Federal Orders that USDA is currently not examining.

This nation experienced the unthinkable in the year following Order Reform (9/11). Our public officials who instilled the components of the current Order Reform could not possibly anticipated America as it is in 2004.

While it might be in the best short-term interest of the key players in the milk industry to continue with business as usual, that is not where the public's interest lies. National Family Farm Coalition believes the entire Order Reform needs to be revisited. The present system rewards the powerful but at the same time makes the system more vulnerable. We feel the nation needs a healthy, resilient milk supply system. This can only happen by examining the entire system.

IN RE:) Docket No. AO-361-A39
) DA-04-03
MILK IN THE UPPER)
MIDWEST MARKETING AREA)

TESTIMONY ON BEHALF OF LAND O'LAKES, INC.

My name is James E. Hahn. I am employed by Land O'Lakes, Inc. and my mailing address is Land O'Lakes, Inc., 4001 Lexington Avenue North, Arden Hills, Minnesota 55112.

Land O'Lakes, Inc. (LOL) is a dairy and agricultural products cooperative. LOL Grade A dairy members produce approximately 12 billion pounds of milk annually. Approximately 1,400 of these dairy members produce milk in the Midwest.

The majority of the LOL milk produced in the Midwest is used for manufacturing. However, LOL performs at a much higher level than the minimum of 10 percent in meeting the shipping requirements of Order 30.

As such, LOL has moderate impact from the depooling issue resulting from negative PPD's. There are some handlers who are impacted to a greater degree due to shipping at a higher percentage level. Most handlers however perform at a lesser level than LOL and consequently are impacted to a much lesser degree.

LOL supports Proposal 2 because it is a moderate approach in addressing the negative PPD and depooling issue. Proposal 2 allows the flexibility of some depooling with no penalty. It may however have significant consequences for those handlers who elect to depool the majority of their milk. This moderate approach will instill more equity amongst handlers with differing levels of shipping performance than occurs today while allowing some degree of depooling.

Proposal 2 also places additional pooling requirements on milk produced outside the states in which Order 30 is located. LOL has gone on record in previous hearings with the position that pooling provisions should be performance oriented as opposed to location based.

Since order reform, it appears the dairy industry is embarking on the 2nd round of individual hearings designed to tighten pooling provisions for the purposes of restricting access to milk originating across order boundaries. This is amazing considering the Secretary in the reform process anticipated milk would cross order boundaries to become

pooled and priced where the greatest needs are exhibited for satisfying fluid demand. This attempt to build higher fences is designed to limit access to Class I markets.

LOL firmly believes that this issue must be dealt with on a national level because Class I utilization continues to decline each year. In 2002 the national Class I utilization in federal orders was less than 37 percent. The Class I utilization for 2003 is skewed upward due to massive depooling as will be the case in 2004. Fluid sales are down 2 percent year over year for the first half of 2004. California Class I is now at 18 percent and falling rapidly.

The following basic questions must be addressed at some future point in time.

What mechanism should be used to pool surplus reserves not needed by any order?

How will market reserves be addressed? National federal order average is 63 percent and rising.

Will we come to a point where someone will be denied pooling because the reserves are too high?

If so, who's milk?

Do all federal orders have burden of pooling excess national reserves?

This issue becomes all the more relevant with the termination of the Western Order. Putting additional pooling restrictions on "distant" milk for Order 30 will only cause pressure to be exerted on some other federal order for pooling access. This will undoubtedly create a request for a local hearing to tighten pooling provisions.

LOL is supporting Proposal 2 in regards to "distant" milk, because of its negative impact on the PPD.

LOL also supports the limit on transportation credits to 400 miles as provided in Proposal 2.

7 CFR Part 1030

Docket No. AO-313-A44; DA-01-07

Milk in the Upper Midwest Marketing Area

(Public Hearing August 2004)

I am Neil Gulden, Director of Fluid Marketing for Associated Milk Producers Inc. (AMPI). My office address is 315 North Broadway, New Ulm, Minnesota, 56073.

My testimony is in support of Proposal No. 1. I am joined in that support by Bongards' Creameries, Ellsworth Cooperative Creamery Association and First District Association.

Since order "reform" was implemented in January 2000, milk from California, Idaho, Utah, Oregon, Colorado, Montana, Nebraska, Ohio, Indiana and Georgia has been pooled on the Upper Midwest Order at various times and in various volumes. All have had a negative effect on the Upper Midwest marketing area producer price differentials (PPD's), but the vast majority of this milk has come from California and Idaho.

Substantial volumes of California milk began pooling on order 1030 late in 2000. A hearing was held in June 2001 and an interim final rule was made effective May 1, 2002, that prohibited the ability to simultaneously pool the same milk on the Upper Midwest order and a State-operated milk order that has marketwide pooling. This was adopted as a final rule in the fall of 2003.

Subsequent to the Upper Midwest hearing, hearings were held in the Central and Mideast orders that tightened their pooling requirements, including the same California issue as well as addressing distant pooling from other states. These two orders about the Upper Midwest order and the pooling requirement changes had the effect of moving milk formerly pooled there onto order 1030 and reducing PPD's for order 30 dairy farmers.

In the mean time, Idaho milk had been and continues to pool large quantities of milk on order 1030. Exhibit _____ page 68 shows that in December 2003, 12.4 percent of producer milk on order 1030 was from Idaho. That same exhibit on page 71 shows Jerome County Idaho as having the most producer milk of any county in the Upper Midwest Federal order. The Upper Midwest marketing area seems to be the dumping ground for milk from areas that either can't get pooled in their geographic area because of lack of access or they find the pooling and diversion provisions on order 1030 so liberal that it is economically advantageous. We believe it is some of each but mostly the latter.

Milk so distant from the market cannot be logically thought of as a consistent supply for distributing plants in the marketing area or even as a reserve supply for a market with 15 – 20 percent Class I utilization. This milk is being pooled by handlers in the marketing area that consistently ship more than the order 1030 required 10 percent to a distributing plant. Under current order provisions a handler can pool 10 times the volume of milk shipped to distributing plants and divert the milk not shipped to nonpool plants inside or outside the marketing area after the milk has been physically received at a pool plant during the first month the dairy farmer is a producer. Handlers using this provision are pooling Idaho milk, for example, shipping one days' production to an order 1030 pool plant (either a supply plant or distributing plant) the first month the milk is eligible and diverting the balance to an Idaho nonpool plant until the milk loses association with the market.

This type of pooling has been consistently happening with Idaho milk since April of 2001 and reached its highest volume level in December 2003 at 263 million pounds. These "sham" pooling arrangements have caused considerable economic loss to Upper Midwest dairy farmers. Exhibit _____ shows the actual

producer price differential vs. the estimated PPD calculated by the market administrator by not including Idaho milk in the Upper Midwest Federal order pool from April 2001 through June 2004. The average loss in PPD value in 2001 and 2002 was \$.02 and \$.03 per hundredweight respectively. The 2003 loss was \$.24 and the January 2004 through June 2004 6 month period was \$.25. The dollar loss on just the \$.24 for 2003 on milk remaining in the pool was \$36.5 million dollars to Upper Midwest dairy farmers. As we have stated earlier, this milk is not supplying the market and never intended to.

There are obviously other local problems that prevented Idaho milk from pooling in their geographic area and causing that supply to seek out pooling partners some 1,500 miles from home. What ever they are, midwest dairy farmers shouldn't be paying for it. Adding fuel to the fire, the Western order was terminated effective April 1, 2004. This means there is an even bigger milk shed no longer regulated by a federal order, raising concern that even more Idaho milk will be pooled on the Upper Midwest order.

The first part of Proposal No. 1 would limit certain activities to the States of Illinois, Iowa, Minnesota, North Dakota, South Dakota, Wisconsin and the Upper Peninsula of Michigan. These are all states or areas that have counties in the Upper Midwest Marketing area.

Qualifying shipments by plants located outside these states could only be made to distributing plants inside the marketing area.

Operators of supply plants within these states may use milk delivered directly from producers' farms to distributing plants in the marketing area as qualifying shipments.

Handlers could not use milk delivered directly from produces farms to qualify plants located outside these states.

Handlers would be prevented from diverting milk to nonpool plants located outside of the states.

The second part of Proposal No. 1 would limit the transportation credit calculation to not more than 400 miles between the shipping pool plant and the receiving distributing plant. Exhibit _____ shows no milk in 2003 receiving a transportation credit for milk shipped to a distributing plant from supply plants outside this 400 mile distance and in fact very little from 300 to 399 miles. Limiting the credit to 400 miles will not disadvantage anyone currently shipping supply plant milk to distributing plants.

Proposal No. 1 will not prohibit the pooling of distant milk on the Upper Midwest order. Anyone who wants to ship the order required 10 percent to distributing plants in order 1030 can still do so. This proposal will however weaken the incentive to pool unneeded blocks of milk without serving the market in any substantial manner.

That concludes my statement.
